

SIMPLE PRODUCTS *for a SIMPLER LIFE*

J. E. Lehman
FOUNDER

FAMILY OWNED AND OPERATED FOR OVER HALF A CENTURY

Founded by **Jay Lehman** in 1955 to serve the local Amish people, Lehman's has grown over the years to supply missionaries, homesteaders, environmentalists, second home owners, and even the chronically nostalgic with authentic products that work for life. When he is not working on his tree farm, playing tennis or

traveling, Jay can often be found in the Kidron store doing, as he says, what needs to be done.

Son of founder Jay Lehman and president of Lehman's, **Galen Lehman** is responsible for day-to-day operations. He began his career at Lehman's as a teenager, and now leads the growing business in using high tech to sell low tech all over the world.

Glenda Lehman Ervin, daughter of founder Jay Lehman and Vice President of Marketing, is responsible for the web, catalog and retail store marketing and public relations. After working as a journalist, for a university, and in a large corporation, she joined the family business in 1996.

Two other siblings Kevin Lehman and Wendy Lehman, are not involved in the business. And let's not forget about all the wonderful employees, local people, relatives and friends that help make Lehman's what it is today.
