CENTREX series composting toilets give any bathroom a luxurious feel featuring porcelain ultra low flush or waterless toilets

- Designed to provide a low maintenance solution for any toilet requirement
- Install a conventional style toilet in your bathroom with a separate composting unit located elsewhere
- Combines classic lines and superior performance
- Ultra low water flush or waterless options
- High capacity options available
- Innovative design for use where a conventional toilet is not an option
- Unique patented Bio-drum™ delivers fast composting

- Three chamber technology designed for easy operation and optimal composting
- Waterless, no-plumbing alternative
- Easy to install (DIY)
- Environmentally friendly alternative
- Vented for odor free operation
- Easy to use
- Connect to multiple bathrooms
- For homes, cabins, cottages, eco resorts, yurts, golf courses, pool cabanas, farms, warehouses, barns, airport hangars, sheds... and more
